

## VeriFone Counter Top PINpad product Links

[http://www.verifone.com/products/printers\\_peripherals/pinpads/index.html](http://www.verifone.com/products/printers_peripherals/pinpads/index.html)

VeriFone PINpads support a variety of key management techniques, including Master/Session and/or Derived Unique Key Per Transaction (DUKPT). VeriFone also offers PINpad+ products that are fully compliant with the PIN-entry-device (PED) specifications jointly issued by VISA and MasterCard.

### [SC 5000 with smart card reader](#) [SC 5000 without smart card reader](#)

Exceptional performance in a sleek programmable PINpad. The RoHS-compliant\* SC 5000 is a lightweight, ergonomic device that can be handed to customers for debit, EBT, or other PIN-based transactions. This space-saving PINpad provides the flexibility of supporting EMV smart card, loyalty, and stored value transactions while readily integrating with your existing POS system. Available with or without a smart card reader, the SC 5000 is a very versatile performer!

### [Smart 5000](#)

The Smart 5000 is a unique single-slot hybrid card reader that accepts EMV chip cards and magnetic swipe cards at the point of sale. It easily integrates with any POS for rapid transaction processing and supports a wide range of payment programs including prepaid, gift card, stored value and other applications.

### [PINpad 1000SE](#)

The PINpad 1000SE is a PED-approved handheld device that supports 3DES, Master/Session or DUKPT key management methods, and Message Authentication Code (MAC). It is fully compatible with the legacy PINpad 1000 and PINpad 101 families. The PINpad 1000SE is also RoHS compliant\*.

### [EverestPlus](#)

An intuitive interface prompts customers to swipe their cards, enter their PINs and verify the transaction. Incorporates VeriFone's VeriShield security architecture- providing fast, flexible file authentication capabilities and advanced protection for tamper-resistant terminal security.

### [NURIT 292](#)

The NURIT 292 is a programmable, multi-functional PIN pad offering comprehensive security – safeguarding transactions as well as application and key downloads.

### **NURIT 222**

A dependable, secure PIN pad, the NURIT 222 is lightweight, easy to use, and easily integrates with POS and ECR devices to provide smooth migration to EMV credit and debit transactions.

### **Xtreme PIN Pad**

The Xtreme PIN pad is PED approved for offline PIN authorization. It has a lightweight, ergonomic design for comfortable handheld operation, and a tactile keypad for maximum ease of use.

### **Secura PIN Pad**

The Secura PIN pad is a highly secure, easy to use device that features both mag-stripe and EMV smart card readers.

*\* Variants of this product shipped to European Union countries are RoHS compliant as of July 1, 2006.*
